PROFESSIONAL SUMMARY

Highly effective executive management professional broadly experienced in all aspects of health care operations. I am very interested in utilizing my health care/business experience in a consulting practice.

PROFESSIONAL EXPERIENCE

Present to 2009

**Meck Consulting LLC
Troy, Ohio 45373**

Consultant (Present -2009)

Established consulting firm to assist organizations in strategic planning/direction, project management, leadership and affiliation related issues.

2008 to 1985

**UPPER VALLEY MEDICAL CENTER (UVMC)
TROY OH 45373**

Chief Executive Officer (2008 – 2007)

Responsible for the strategic direction of UVMC health care system and integration with Premier Health Partners (PHP), a billion dollar health care system

- Negotiated, coordinated, and consummated the transaction to effectively join the joint operating company of PHP.
- Facilitated and coordinated the transition and integration with PHP.
- Developed, implemented and was the face of communications as it pertained to the various announcements associated with becoming part of PHP.

President/Chief Executive Officer (2007 – 1994)

Responsible for the strategic direction of UVMC health care system

- Charted and directed strategic business focus for multi-facility health care system.
- Developed and implemented specific strategies to reduce organizational risk.
- Restructured regional health care delivery system including new acute care facility, which resulted in approximately \$15M per year efficiencies for the system.
- Coordinated and facilitated merger of three foundations, three auxiliary volunteer groups and three medical staffs with minimal resistance and loss of productivity.
- Coordinated and transitioned organization to one centrally located acute care facility and created regional health care partnerships with large tertiary health care systems.
- Successfully developed and maintained internal and external alliances to support move to new hospital and regional collaboration.
- Created and fostered strong team-oriented relationship among Board of Directors, Medical Staff, and Senior Management Staff.

Executive Vice President (1994 – 1992)

Served as chief operating officer and executive liaison with Board of Director Committees

- Transitioned and expanded COO role, which permitted CEO to more effectively focus on long-term business strategies and external activities.
- Effected \$4.5M annual expense reduction and significant earnings improvement through major organizational restructuring. Centralized MIS and telecommunication systems.
